### Popular questions

 Anonymous 1 Nov, 1:40pm	0  13 
It is a bit problematic that Biobest, Koppert etc. are advicing on use of their own products. We need more independent specialists/advisors on IPM.	
 Angel Marquez 1 Nov, 1:45pm	0  13 
Can Hyper-spectrum sensing, and other vision sensors compete with machine olifaction (smell), or do you see them as complementary?	
 Angel Marquez 1 Nov, 1:34pm	0  12 
What is the greatest barrier to the adoption of the available tools and knowledge you mentioned, in today's farms?	
 Anonymous 1 Nov, 1:52pm	0  12 
How can new sustainable ideas/products survive 10 years and 2 mln of investment?	
 Anonymous 1 Nov, 1:17pm	0  11 
I think besides science, we also need more data collection to make better decisions, such as machine smelling of pests instead of seeing, any thoughts on that?
